

MPU5 Download Cable

The Ops-Core® AMP® Communication Headset allows for multiple download cable options. These download cables give operators the ability to tailor their communications configuration to their mission needs and preferences. The MPU5 download cable allows the operator to directly connect a Connectorized AMP Communication Headset to the Persistent Systems® MPU5 PTT.

KEY FEATURES

- Directly connects the AMP Communication Headset to the Persistent Systems MPU5 PTT
- Enables left and right independent NET placement as provided by the Persistent Systems MPU5
- Eliminates the need for an additional adapter cable
- Locking collar on the PTT connector enables the operator to lock the cable to the PTT if desired
- Fischer Connectors' solutions provide high quality, environmentally sealed connection points to easily connect and disconnect from the AMP Headset
