

FAST™ Carbon Composite Mandible

Scalable, Modular Protection

The FAST Carbon Composite Mandible offers increased elemental and blunt impact protection for all Ops-Core® FAST helmets equipped with the Super High-Cut Skeleton ARC Rails and Super High-Cut Skeleton ARC Shim. Designed for mobility operations, the FAST Carbon Composite Mandible provides facial protection from debris in a lightweight, low profile form factor. A pivoting vent plate reduces fogging, enables clear communication and allows for easy hydration. The FAST Carbon Composite Mandible is one-size-fits-all and quickly scalable, easily attaching to the helmet without occupying valuable rail space.

KEY FEATURES

- Increased elemental and blunt impact protection
- Lightweight design easily attaches to SHC ARC Shim
- Pivoting vent plate to reduce fog, enable clear communication and easy hydration access
- Compatible with any Ops-Core FAST helmet equipped with the Super High-Cut Skeleton ARC Rails and Super High-Cut Skeleton ARC Shim
- SHC Skeleton Rails and SHC ARC Shims available as upgrade kit to any Ops-Core FAST Helmet

Available Colors:

SPECIFICATIONS

Blunt Impact
